As a finance consultant within controlling and accounting I can help you with interim solutions and during dedicated finance projects. Through different roles in large multinational corporations I have a broad experience and understanding of financial flows and processes. My previous roles have been Nordic Business Controller, Global Clinical Operations Controller, Accounting Specialist & Staff Controller, Senior Accountant and Inventory & Intercompany Accountant

I am energetic, efficient and results driven. I am highly motivated in making processes and the daily work more efficient and user friendly. I also take pleasure in making finance understandable to the people outside of the finance department.

#### Example projects

- Budgeting, forecasting, reporting and analysis of sales and costs
- Closing of books
- Sales and stock reconciliations, both internal and vs wholesalers
- Investigations and reconciliations of complicated accounts and transactions
- Creation of excel templates to facilitate daily work

#### Education

- Degree of Master of Science in Business and Economics, Uppsala University
