As a consultant I have held interim positions as shared service manager, finance manager and accounting manager and have had positions where I have been a contributor within the area of finance for companies in times of transformation.

As an employee I have held positions as Finance manager in Nordic organisations, business controller, financial controller, recruitment consultant within the area of finance.

I am a prestigeless hands-on leader who brings positive energy. My lead words are collaboration and encouragement of co-workers for teams to be successful.

Example projects

- Interim consultant within the areas of finance and controlling
- Finance Manager for Nordic organization within international corporations
- Responsibility for both management reporting and statutory reporting
- Business controller with coordination responsibility between production and marketing/sales organisations
- Eight years with studies and work within American public company and non-profit organisation

Education

- MBA, Webster University, USA
- Bachelor degree, Stockholm University
